
Algorithm: A program to demonstrate Algorithm2e

```
1 Procedure f() is  
2   First statement;  
3   Another statement;  
4   if conditional then  
5     Statement 1;  
6   else  
7     Statement 2;  
8   Last statement;  
9 end
```
